FlightDeck

Dashboard

Our real time dashboard gives you an immediate overview on your worldwide deliveries. Each category is expandable, allowing you to maintain control over the delivery experience and support any cross-border issues that may arise.

FlightDeck

Dashboard

Full visibility of the status of any parcels across your account and your delivery lanes. You're able to deep dive into every delivery with real-time data to support your customer should they have a question. View immediately when a parcel might be held up, where it is and the reason why - be that weather, customs, or address queries. With FlightDeck, you can see exactly what we see, when we see it.

The screenshot displays the FlightDeck dashboard for Joe Smith (joesmith@company.com). The dashboard provides a comprehensive overview of parcel performance metrics and delivery status.

Analytics

Click Analytics to find clear and concise service reporting across all countries you deliver to. Use custom date ranges to identify peak times and trouble spots, allowing you to maintain and refresh your customer delivery promise. Offer realistic and honest transit times to your customers, allowing them to choose the shipping method that best suits their needs.

The screenshot displays the FlightDeck Analytics dashboard. The user is logged in as Joe Smith (joesmith@company.com). The dashboard shows a navigation menu on the left with 'Analytics' highlighted. The main content area is titled 'Analytics' and includes a date range filter for 'Parcels shipped between 09/02/2026 - 23/02/2026'. The primary data visualization is a table titled 'Performance By Country'.

Injection Point

Click on any of our 8 injection points to bring up a map showing the delivery times and number of parcels to each state so that you can ensure the most economical and time-critical delivery routes across the USA.

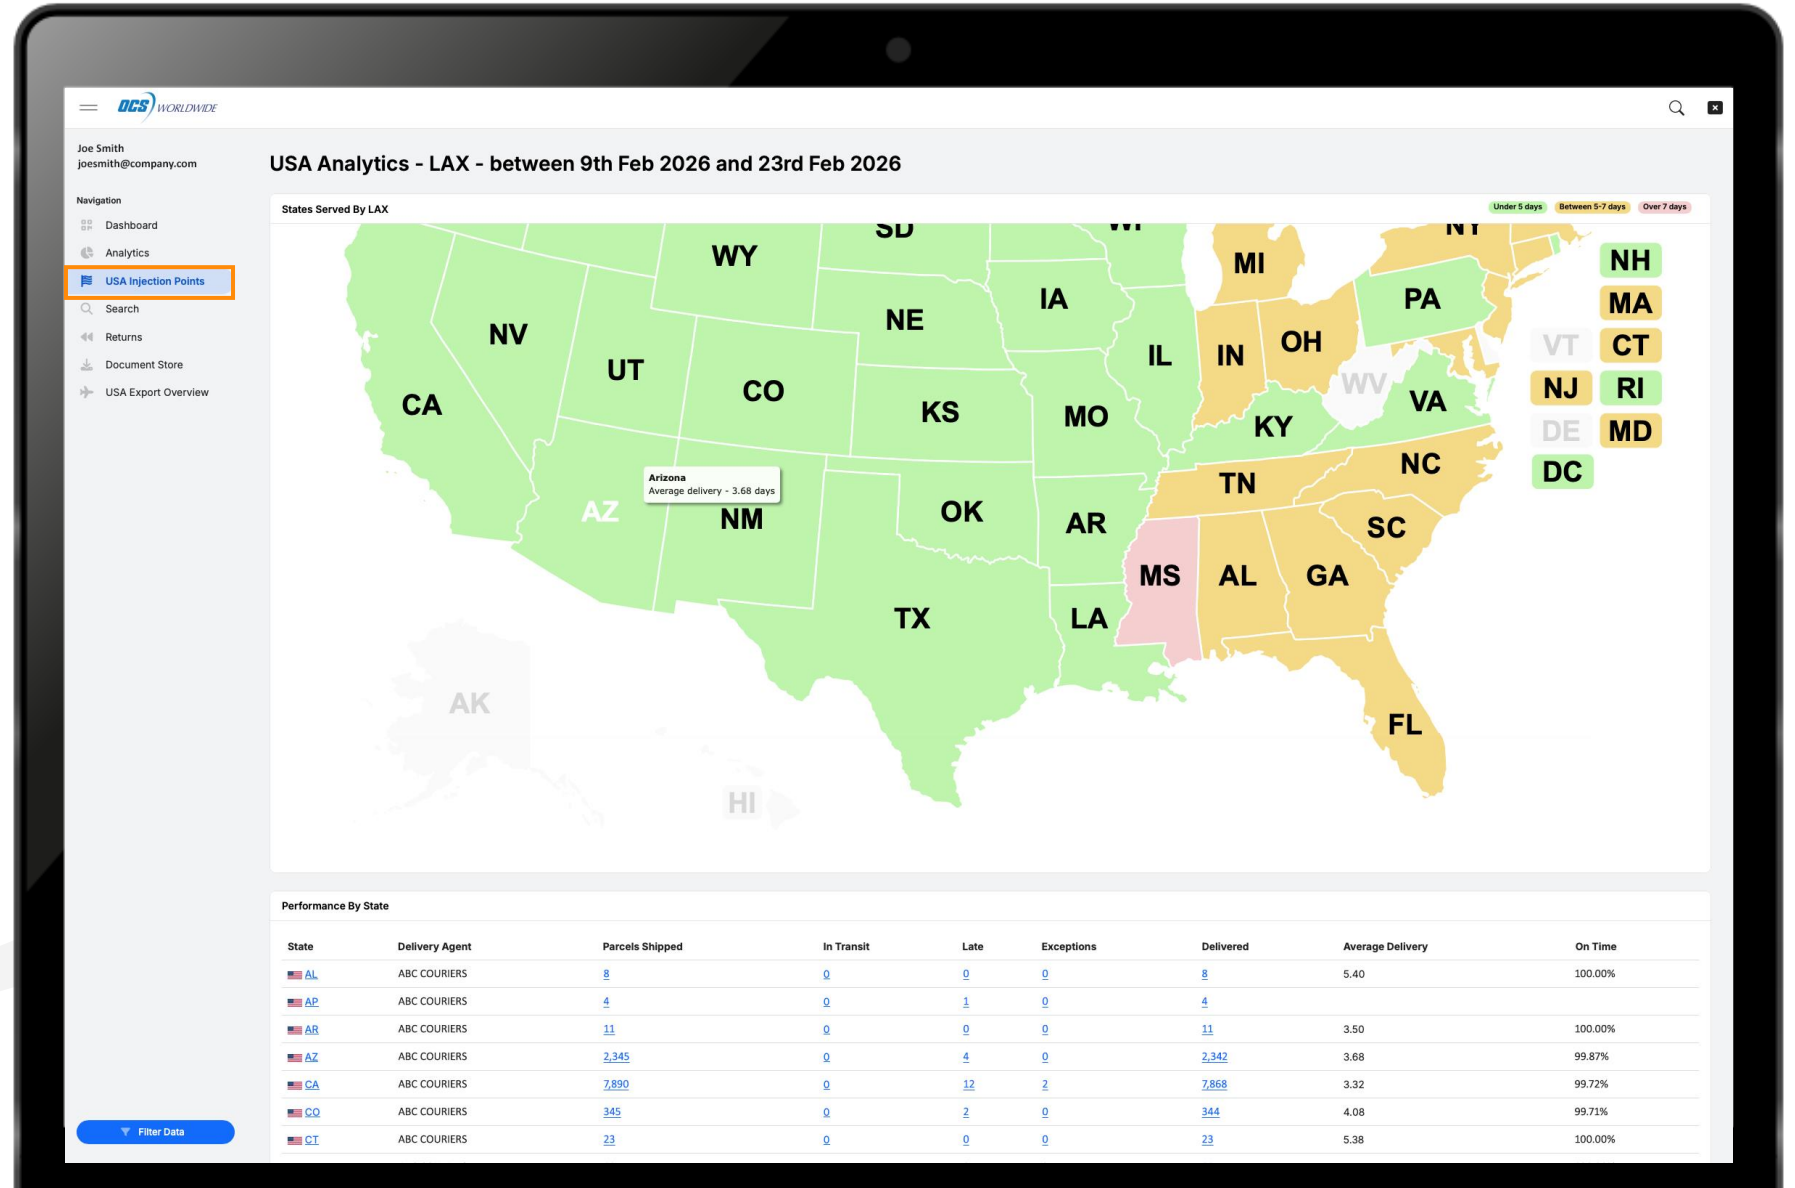

FlightDeck

Injection Point

Hover over any state on the map to bring up the full state name and the average delivery time to that state from your chosen US entry point.

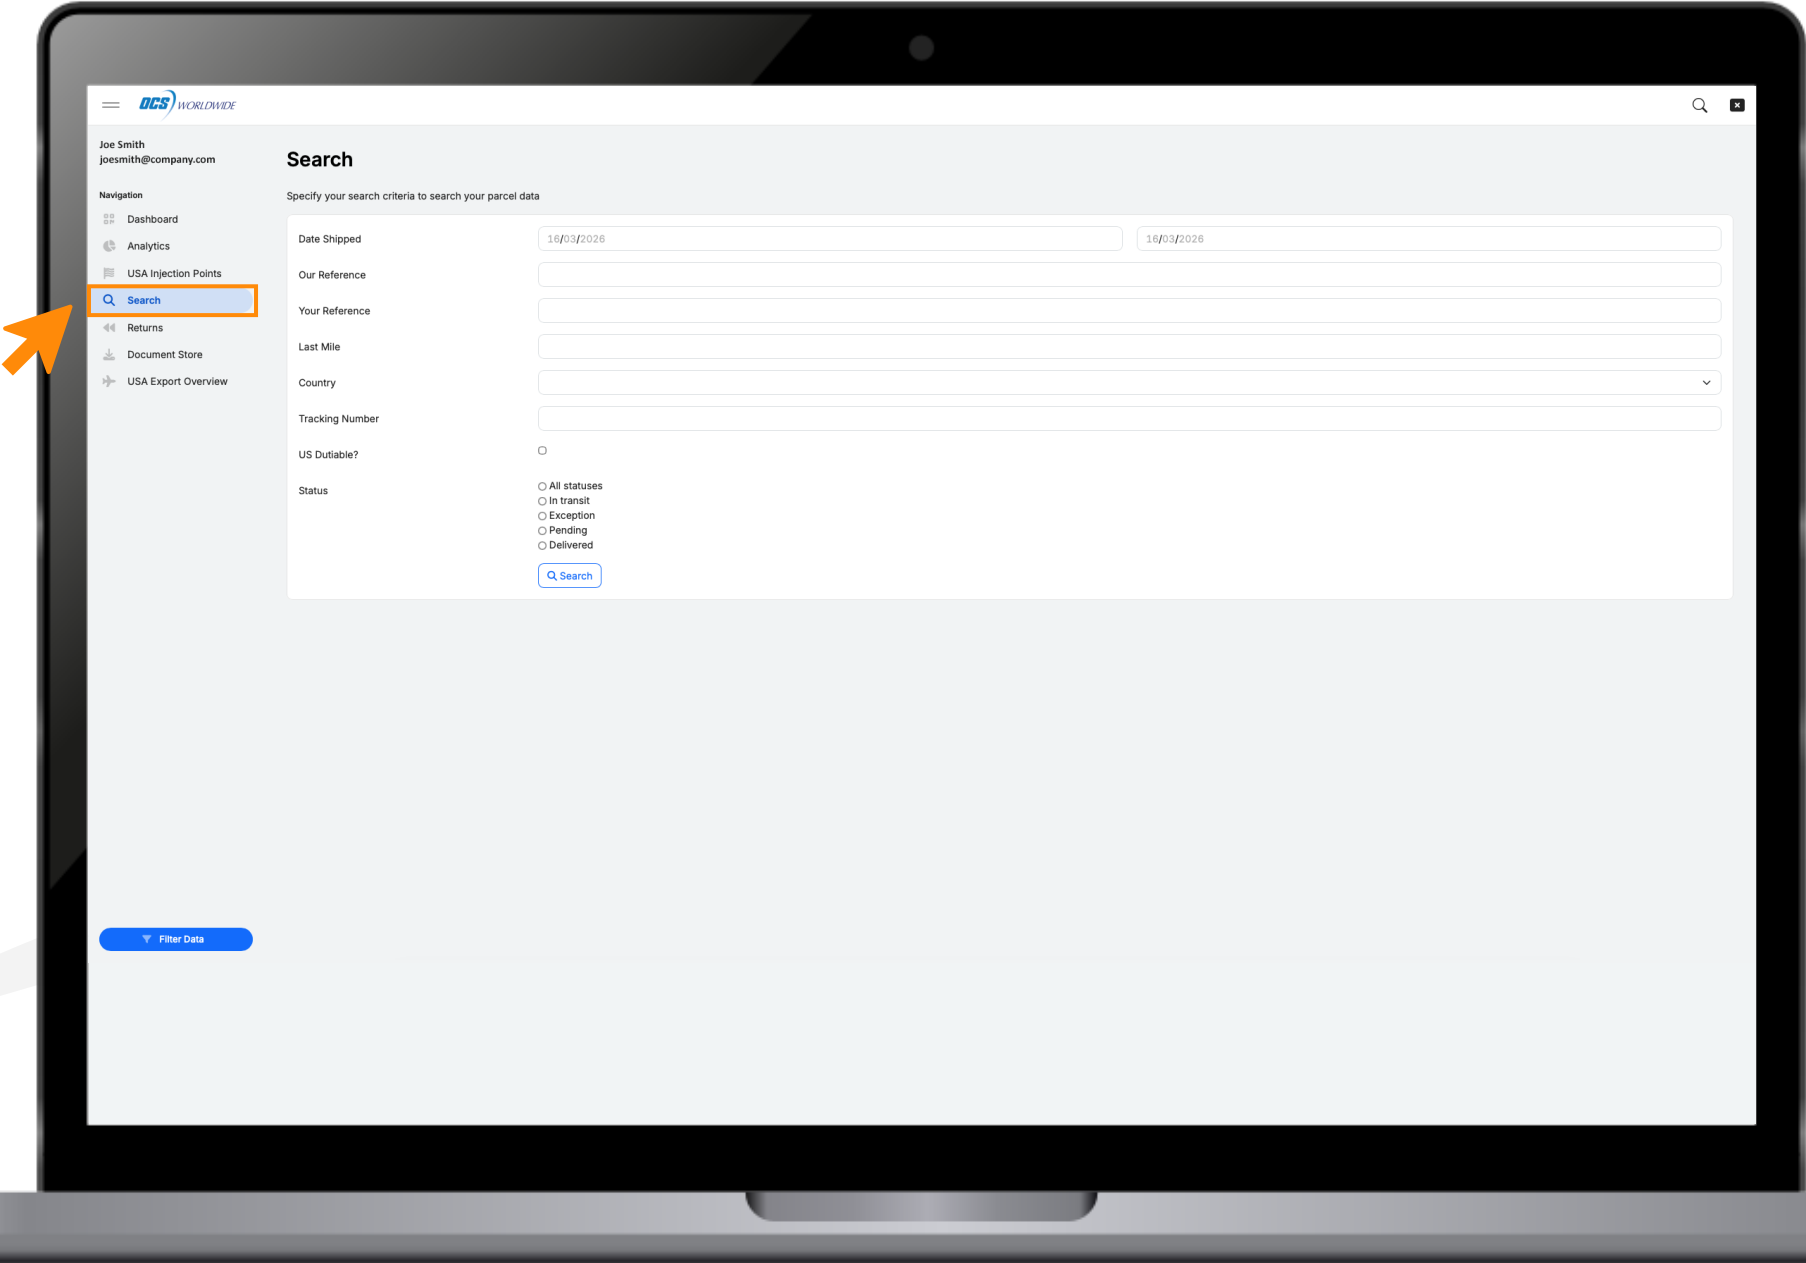

States are colour-coded so you can easily identify those which are within your delivery promise and those which aren't.

FlightDeck

Search

The Search function allows to find and filter your results whether you want to look at a particular date range, a particular country or even to isolate a particular parcel. All in the simplest way possible.

FlightDeck

Search

Look at your latest shipments, follow every parcel and see which have been delivered with precise, real-time data.

The screenshot displays the FlightDeck Search Results interface. The user is logged in as Joe Smith (joesmith@company.com). The search results are for 123456 shipments, showing a list of 20 items. Each item includes the date shipped (23rd Feb 2026), our reference, your reference, last mile, tracking number, status (Delivered), and latest tracking location. A 'Filter Data' button is visible at the bottom left of the table.

Returns

Click any reference number and you can find out where that parcel is on its return cycle - See exactly when the customer generated a returns label, when and where they dropped off the parcel and where it is at every point and location during the return journey.

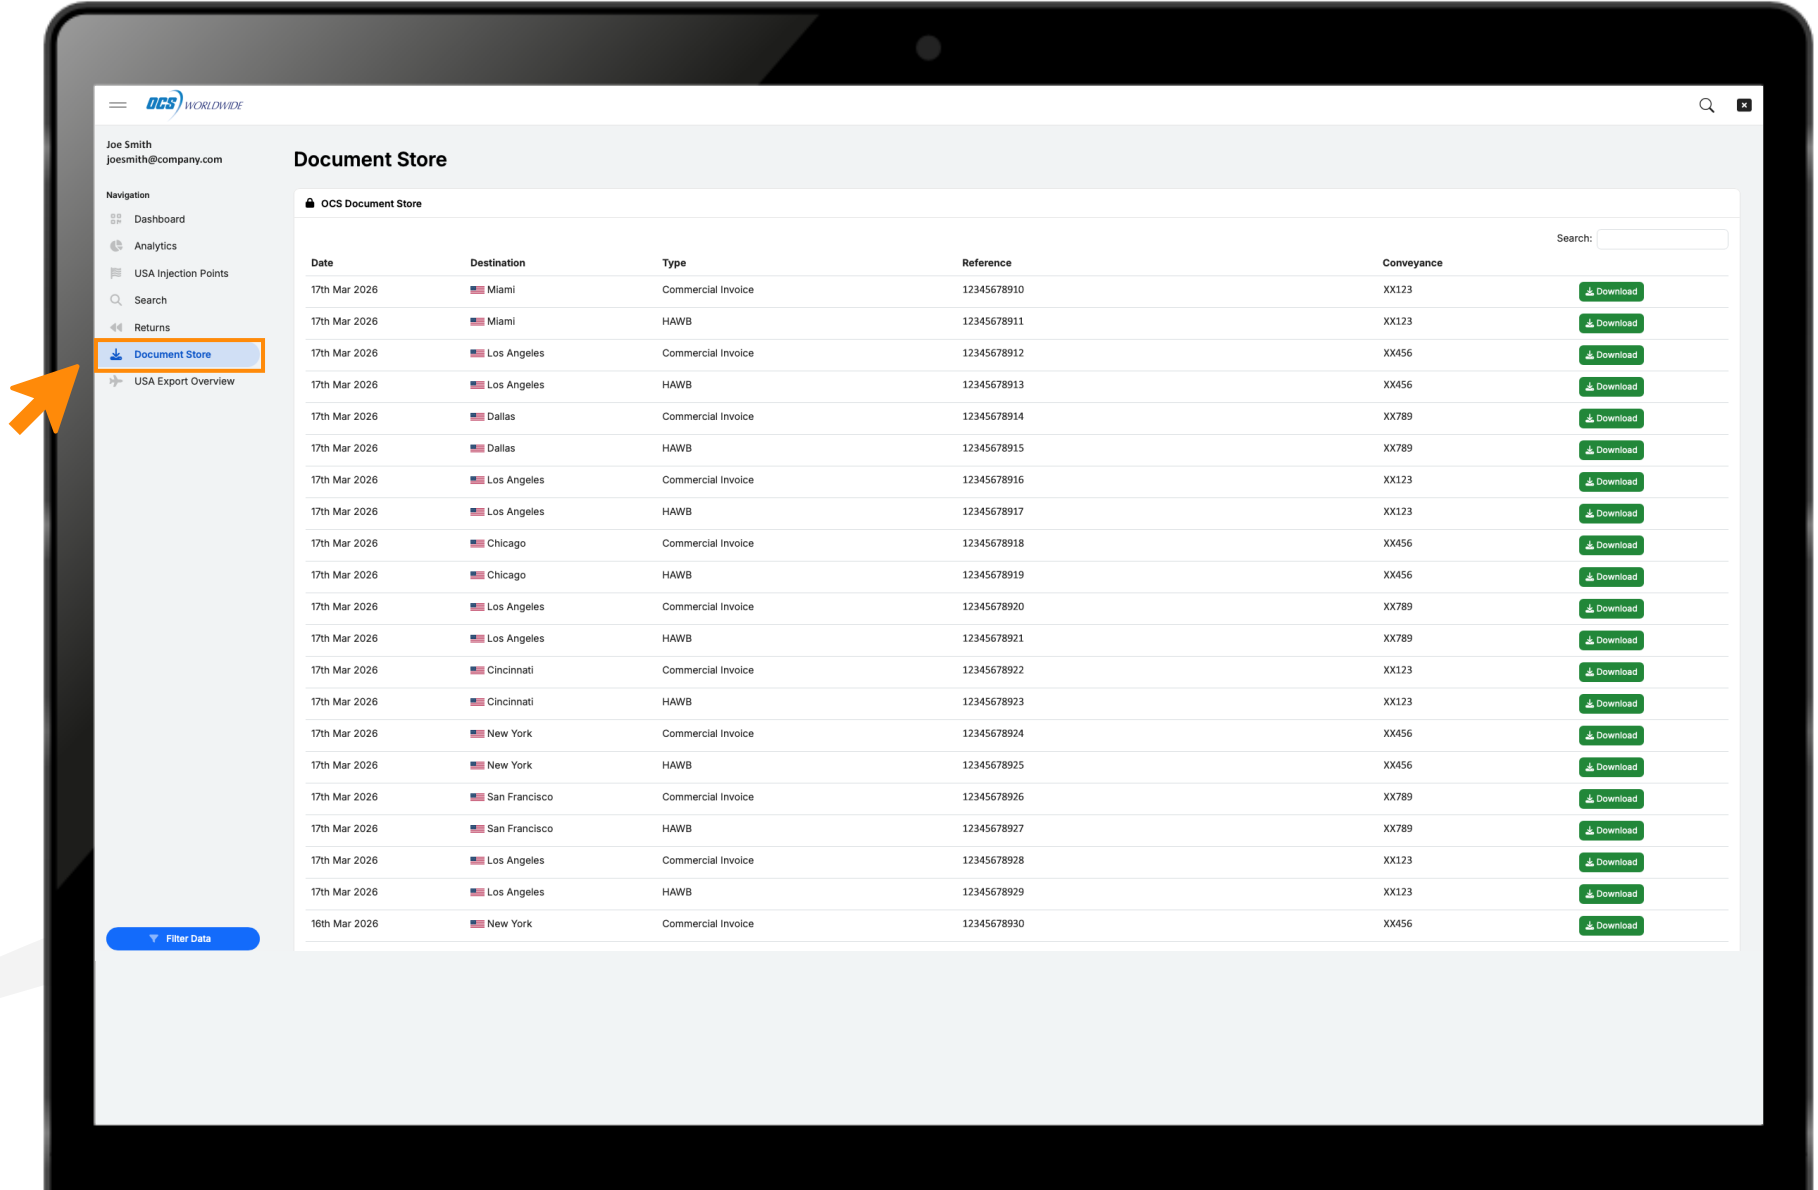

The screenshot shows the FlightDeck tracking interface for a return parcel. The top navigation bar includes the OCS WORLDWIDE logo, a search icon, and the user's name and email (Joe Smith, joesmith@company.com). The main header displays the tracking number 12345678935 and a 'Delivered' status with the reference number 1234567. The left sidebar contains a navigation menu with 'Returns' highlighted. The main content area is divided into several sections: 'Delivery Address' (MS SALLY JONES, 1234 MAIN STREET, MAIN TOWN, VA, 12345-6789, USA), 'Last Mile' (ABC COURIERS, 1234567890ABCDEF1234, Delivery expected before 11th Mar 2026), 'Parcel Details' (Weight: 0.860 kg, Dimensions 42 x 38 x 10 cm), and 'Contact Customer Services' (Ask a question button). The 'Tracking' section features a table with columns for Date, Tracking Event, Location, and Code. A red notification banner states 'A return label was generated on our label portal'. Below this, a table shows the return process timeline: Label Generated (14th Mar 2026, 9876543210987654321107), Dropped Off (14th Mar 2026, MERRIFIELD VA DISTRIBUTION CENTER), Received at OCS Hub (16th Mar 2026), and Despatched to LHR (Not yet). The bottom right corner shows 'Items (4)'.
